About the property

Sunny Paradise is a modern residential complex in Sunny Beach, offering high-quality turnkey apartments in a quiet area away from the tourist noise. The project combines advanced construction technologies, such as ventilated HPL facades and silent KONE elevators, ensuring exceptional comfort and durability. It is an ideal solution for investors seeking stable rental income and high appreciation potential in one of Bulgaria's most popular resorts.

Each apartment is handed over to the owner fully ready for move-in: with painted walls, laminate flooring, stretch ceilings, installed doors, and fully equipped bathrooms with underfloor heating. The location of the complex ensures maximum convenience — just a 15-minute walk to a clean beach and a mountain eco-park for hiking. All necessary urban infrastructure is within walking distance: supermarkets, restaurants, pharmacies, and public transport stops.

Thanks to a professional approach to construction and high demand for quality housing in the region, Sunny Paradise represents a rare opportunity for a profitable capital investment with yields starting from 11% per annum.
