About the property

LuxeVista Kingswood Bali is an exclusive collection of modern tropical villas located in the heart of trendy Uluwatu, just minutes from the legendary Bingin Beach. The project embodies the concept of "quiet luxury," blending minimalist architecture with organic materials and the highest level of comfort. Each residence is designed to ensure maximum privacy, offering spacious open-plan living areas that flow seamlessly onto cozy terraces by private infinity pools.

The villa interiors are designed in a Soft Minimal style, where natural stone and precious wood create an atmosphere of tranquility and connection with nature. Panoramic glazing fills the space with light, while high ceilings provide natural ventilation. The villas come fully furnished and equipped with premium appliances, ready for living or renting out immediately upon completion.

The unique location near the best surf spots, world-class restaurants, and beach clubs makes Kingswood Bali an ideal asset for investors. Professional property management allows owners to receive passive income in USD, while the rapid infrastructure development of the Bukit Peninsula guarantees steady capital appreciation of the property.
