About the property

Kasia V rises majestically on Avenida de las Habaneras, redefining urban luxury on the Costa Blanca. This five-storey, 34-unit residence is a bold architectural statement — its avant-garde silhouette stands out among the traditional facades of Torrevieja, signalling a new era of sophisticated city living. Every detail has been meticulously considered: open-plan layouts flood the living spaces with natural Mediterranean light, while large-format porcelain flooring, Silestone worktops, and fully equipped designer kitchens create an ambiance of understated elegance. The crown jewel of the development is the communal rooftop pool, where residents can take a refreshing dip while gazing at the endless blue horizon. With the Mediterranean Sea just 100 metres away and the lively Playa del Cura promenade a five-minute stroll from the doorstep, Kasia V delivers the authentic Spanish coastal lifestyle — morning swims, sunset walks, and evenings spent exploring the city's vibrant tapas bars and restaurants.

The investment case for Kasia V is equally compelling. Torrevieja remains one of the most liquid property markets on the southern Costa Blanca, driven by consistent demand from Scandinavian, British, and Dutch buyers. The city's year-round liveliness — unlike many seasonal coastal towns — ensures strong rental occupancy across all twelve months. Early buyers stand to benefit from pre-sale pricing before the market re-rates the property upon handover, while the scarcity of new-build developments in the immediate city centre adds further long-term value. Kasia V represents not just a home, but a strategic acquisition in one of Europe's most resilient real estate markets.
