About the property

Panorama Long Beach by Döveç Group is a boutique luxury resort residence designed exclusively for 111 families, located just 180 meters from the famous Long Beach coastline in İskele. Two 13-story cascading towers with panoramic glazing are oriented to provide uninterrupted views of the Mediterranean Sea from every apartment. The development combines the serenity of a private five-star retreat with strong investment appeal in Northern Cyprus's fastest-growing coastal destination.

The architectural centerpiece of the complex is its 13th-floor rooftop terrace featuring an infinity pool, a 360-degree Sky Lounge bar, an open-air cinema, and a sky telescope for stargazing. On the ground level, residents enjoy three swimming pools, a spa center with a sauna and Turkish hammam, a fitness and yoga studio, an on-site restaurant, mini golf, and dedicated children's play areas. Every residence is crafted with high-end finishes, including large-format porcelain tiles, granite countertops, and integrated smart home systems.

The seaside promenade, cycling paths, restaurants, and markets are just a two-minute walk away, while Ercan International Airport is within 50 km. With Döveç Club Card privileges granting access to an indoor pool alongside 24/7 reception and concierge services, owners experience effortless year-round resort living. Its limited collection of residences and prime coastal position make Panorama Long Beach a highly liquid asset for both passive rental income and long-term capital appreciation.
