About the property

Luma Biohacking Ubud is the first premium longevity resort in Ubud, nestled within a traditional Balinese park surrounded by lush tropical greenery. The project masterfully blends the authentic atmosphere of the island with cutting-edge life-extension technologies and biological age management.

The complex offers investors a unique wellness ecosystem featuring biohacking programs, a professional wellness center, and conceptual leisure zones. The top-tier infrastructure boasts a premium Topgym hub, thermal areas, a hammam, radiation-shielded sleep rooms, and the Hexagon art studio. Guests benefit from advanced therapies including cryotherapy, ozone treatments, hyperbaric oxygen chambers, custom nutrition protocols, and a Health Food Bar.

Located right in the tourism heart of Ubud, the resort guarantees seamless pedestrian access to iconic landmarks and steady year-round demand. Professional hospitality management ensures exceptional occupancy and high passive yields for investors within the booming global wellness industry.
