# About the property

Villa Los Arcos is an exclusive investment project for a luxury mansion, offered as a prime plot of land with an approved building license in the heart of Marbella's Nueva Andalucía. The architectural concept is built upon flawless symmetry, grand proportions, and iconic repeated arches that define the property's elegant identity. This project represents a rare opportunity to construct a bespoke dream estate in Marbella's finest golf valley.

Inside, the expansive volume takes center stage, highlighted by a double-height central living space with full-scale glazing that maximizes natural light from both sides. The fluid open-plan design connects a state-of-the-art kitchen with a statement island to the controlled dining and lounge areas. The layout offers 6 to 8 highly private en-suite bedrooms and a flexible lower ground level ready to be tailored to your desires.

Outdoors, the correctly proportioned garden features a long parallel swimming pool, flawless terrace transitions, and a covered pavilion designed for usable outdoor living. Nestled in Marbella's most balanced location, this plot offers immediate access to elite schools, golf courses, and everyday infrastructure without public exposure.
